

Automated Interface Solutions

Non-Contacting Web Measurement and Control Solutions

Web Measurement

AIS Gauging is an industry leader in web measurement technologies providing our customers with the most advanced measurement and control of thickness, coat weight and basis weight. Our sensor designs provide best-in-class speed, accuracy and reliability.

Process Control

Innovation and expertise are key ingredients for us. Our engineers are committed to providing the most advanced algorithms for both MD and CD controls. Coupled with our WonderWare™ Factory Suite™ HMI, we provide unparalleled ease of integration with existing controllers and plant network devices.

Support Services

Award Winning Service begins with the most highly trained service and support engineers available. We work directly with our customers to provide 24/7/365 routine maintenance and demand support services. This helps to ensure both optimum control and system reliability.

TOTAL SOLUTION PROVIDER

We supply solutions for roll stock, paper, aluminum foil, steel, blown film, plastic sheet extrusion, fiberglass insulation, vinyl and rubber, carpet, nonwoven textiles, tape, coating and laminating, asphalt roofing materials, particle board, as well as many other industries.

WHAT SETS US APART FROM OTHER COMPANIES

AIS Gauging is definitely a different sort of gauging company. We feel our job is to provide our customers with the finest gauging and control systems available, and that all begins with a commitment and caring attitude toward our work. Since inception we have pressed the importance of quality, detail, precision and safety, all of which sets us apart from our competitors.

AS A LEADING GAUGE SUPPLIER

We are fully dedicated to our clients. We look at things from a bigger perspective, thinking in terms of design, quality, and workmanship. By combining more than basic concepts, we are able to provide our customers with a realized solution that will last well into the future.
