

Automated Interface Solutions

Non-Contacting Web Measurement and Control Solutions

APOLLO Roofing Solution

Web Measurement

AIS Gauging is an industry leader in web measurement technologies providing our customers with the most advanced measurement and control of thickness, coat weight and basis weight. Our sensor designs provide best-in-class speed, accuracy and reliability.

APOLLO Mini-C Traversing

Designed as the most rugged mini-C frame on the market for the most demanding applications. Includes our X-ray sensor with VEC Technology for increased resolution and product measurement accuracy.

Proposed Application

Install the Apollo Mini-C Traversing frame post-coater, just after granule application. This allows the control system to react to machine variation and product changes much faster than currently possible with existing downstream gauges. Further integration with the existing gauge to provide cascade control.

Benefits:

- Faster product changes
- Scrap reduction
- Tighter product tolerance
- Manufacturing cost savings
- Better product quality
- Installs easily and Integrates seamlessly
- Quick ROI

WHAT SETS US APART FROM OTHER COMPANIES

AIS Gauging is definitely a different sort of gauging company. We feel our job is to provide our customers with the finest gauging and control systems available, and that all begins with a commitment and caring attitude toward our work. Since inception we have pressed the importance of quality, detail, precision and safety, all of which sets us apart from our competitors.

AS A LEADING GAUGE SUPPLIER

We are fully dedicated to our clients. We look at things from a bigger perspective, thinking in terms of design, quality, and workmanship. By combining more than basic concepts, we are able to provide our customers with a realized solution that will last well into the future.
